ABOUT US

Stainless Style was established in 2009. As a leader in precision stainless steel engineering and fabrication we have been delivering creative and cost effective solutions to satisfied customers for almost a decade.

Our goal is to foster strategic partnership and provide solutions to your manufacturing needs.

Our team of dedicated employees focus on high quality and attention to details at every manufacturing process.

Our capabilities range from light gauge sheet to heavy plates in various metals including stainless steel, galvanized steel, brass, copper etc.

OUR COMMITMENT

We operate on a commitment to a quality experience, from the time of our first contact with you, to the time your product is complete and in your possession.

It is the goal of our highly skilled and experienced staff, to provide you with products of the highest quality in timely manner in order to meet and exceed your project's requirement and expectations.

We are dedicated to providing you outstanding customer service, working personally with you to determine the best, most and efficient way to meet your needs.

Our goal is your satisfaction, for both the product you receive , and the process by which your product is developed and produced.

OUR PHILOSOPHY
“DO IT RIGHT THE FIRST TIME”.

WHAT WE DO

Stainless Style manufactures the finest quality stainless steel custom products in any size and shape for a diverse group of industries. We manufacture, service, repair, reconfigure and install a wide range of custom stainless steel products and equipment.

Stainless Style is active in architectural products of stainless steel, bronze, aluminum and copper, all Metal Works.

Stainless Style produces products for property owners, architects, designers, construction companies, project managers and original equipment manufacturers.

Stainless Style's longevity in this field is due to high standards, quality, our people and its craftsmanship.

Stainless Style is your one-stop solution provider for quality-driven fabrication of custom products, processing tanks, storage tanks, metal cabinets, counter tops, balustrade, pipe processing and more.

Our professional staff will work with you on all details and accurate site installation. We deliver what we promise and in time according to your schedule and dead time limits.

We provide:

- Budget estimation
- Working specification
- Field support
- Competitive offers & Quotes
- Accurate Installation and QC conformity

OUR CAPABILITIES

LASER CUTTING

Our state-of-the-art dual-laser flexible manufacturing system performs high-tolerance piercing and cutting on a wide variety of material types and thicknesses. Our advanced laser cutting services are ideal for customers wanting quick turn prototypes which, once approved, we can transition seamlessly to full production.

CNC CAPABILITY

CNC laser cutting including the latest 6-axis 3D high-speed dedicated tubing and structural lasers.

FORMING

A highly accurate and widely used machine that can be setup to run difficult forming operations with ease.

WELDING

TIG welding, MIG Welding, electrode welding.

TURNING, LATHE EQUIPMENT

TOOL BUILDING

Tool capabilities to build forming dies from laser cut shapes in house. No matter what the intricate forming operations may be for the component, we can provide quality with competitive pricing.

SHEARING

TUBE BENDING

Rotary tube bender for round and square tubing

TUBE/ANGLE ROLL

NC angle roller; capable of rolling rounds, squares, rectangles, angles

FINISHING

We offer a non-directional finishes, edge cleaning capabilities, de-burring, many finish types on welding and assemblies.

ENGINEERING AND CAD

A full service-engineering department to develop value added and reverse engineered solutions for fabrication. Our CAD/CA software allows us the ability to import your drawing files or create new precision files from your prints.

VALUE ADDED ENGINEERING

ASSEMBLY AND PACKAGING

Dedicated areas for full or partial assembly needs and packaging

MANUFACTURING MANAGEMENT

Job manufacturing software used for estimating, shop control, order entry/tracking, and cost evaluation. Most common materials are kept in stock.

Please contact us with any questions that you may have, our dedication to fabrication is only measured by your satisfaction.
